-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, 26-28, drawn to a method, system, computer program for controlling utilization of data, classified in schedule processing, class 718, subclass 102.
 - II. Claims 15-25 and 55, drawn to a method, system, computer program for client and server and access control, e.g., distributed news in virtual world including visibility control of such packets, classified in class 709, subclass 203, 225.
 - III. Claims 29-42, drawn to a method, system, for activation of data, classified, version management, in class 715, subclass 511.
 - IV. Claims 43-50, drawn to a method, system, for attaching flag control the packet, classified, parameter setting, in class 709, subclass 228.
 - V. Claims 51-54, drawn to a method, system, for offering and providing service and resource allocation and flow control, classified in class 709, subclass 229.
2. The inventions are distinct, each from the other because of the following reasons: Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as allowing user to control data distribution by using wrapped control field in the packet; invention II has separate utility such as using the wrapped packet for providing specific service in access control to virtual world and news delivery; invention III has separate utility such as activation or the wrapped packet based on specificity of condition requirement such as time, location

and personal environment; invention IV has separate utility such as attaching flow control flag, notification flag, concealment flag, etc., invention V has separate utility such as resource allocation, e.g., storage calculation and visibility flow control. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for each of Groups I-V is not required for each of the other Groups, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
